

## About The Kellogg- Eddy House...

*The Kellogg-Eddy House is a beautiful classic New England home located on Willard Avenue. Built in 1808, this home is a prime example of a typical New England Georgian-style house with some Greek Revival influences and a good example of the home of an affluent farm family of that era. It has a Colonial Revival addition dating to 1928. The Newington Historical Society & Trust, Inc., has furnished the rooms in the Kellogg-Eddy House with furniture and artifacts owned by many early Newington families. Enjoy a piece of Newington's past during your next special event.*
